

DoART with the Muddy Creek Artists Guild

UNLEASH YOUR INNER ARTIST

Stampmaking

Join us for our DoART Party on Wednesday, May 31, from 7-9pm, when Muddy Creek painter Dan Grogan shows you how to make your own decorative stamps and greeting cards with modern materials and relief printing techniques that are hundreds of years old. This is the perfect art form to enhance your scrapbooking, card-making and journaling crafts. Or, just for great creative fun!

You will learn the processes step-by-step to make beautiful stamps and greeting cards: transfer your designs, or ours, onto a soft rubber printing block; carve your block easily and safely; and then, ink and print your own creative designs.

We'll supply everything you need – carving tools, printing blocks, cards, ink, and more, as you explore this fascinating and expressive art form. We are also offering you the option of purchasing the tool set, ink pad, and extra block material when you register, so you can continue the fun at home. Join us for another great evening making art!
